## PROFESSIONAL SUMMARY: AI / ML Engineer

**AI / ML Engineer** & Data Scientist with over 17+ years of IT experience, specializing in Machine Learning, Deep Learning, Large Language Models (LLMs), RAG, Agentic AI, and Enterprise AI Guardrails. Expert in bridging enterprise data systems with Artificial Intelligence using Python, TensorFlow, PyTorch, and cloud platforms (Azure, Salesforce Data cloud). Built production-ready AI systems including RAG pipelines and AI agents. Strong experience in mentoring teams and delivering scalable AI solutions at Accenture.

## TECHNICAL SKILLS

- **AI & ML**: LLMs, NLP, Deep Learning (TensorFlow, PyTorch), Neural Networks, RAG, LangChain, Hugging Face, Scikit-learn.
- **Cloud & Data**: Azure AI, Salesforce Data Cloud, GCP, Vertex AI, SQL, Pandas, NumPy, Power BI
- Web & Deployment: React.js, Next.js, Flask, FastAPI, Git
- Enterprise: SharePoint, Power Platform, Salesforce, Agentforce.

## KEY PROJECTS

### NLP & Competitor Analysis

- Engineered a Natural Language Processing (NLP) pipeline to extract and classify competitor strengths and weaknesses from unstructured text.
- Conducted text mining and correlation analysis to identify how specific competitor features impact final business/deal outcomes.

### Salesforce Agentforce Agent (Win/Loss Insight Coach)

- **Architected a Hybrid RAG Agentic Workflow:** Designed and deployed a conversational AI agent capable of dynamically routing user intent between a quantitative SQL math engine and a qualitative Data Cloud Vector Search engine.
- **Bridged Custom UI with LLM Context Windows:** Configured Custom Lightning Types to create a bidirectional data bridge, allowing the AI to pause processing, render a custom UI, and securely absorb user-defined parameters back into its reasoning engine.

### https://www.halfDigit.com – Agentic AI Assistant (Personal Portfolio)

- Built full-stack AI system using Next.js + Flask with LangChain, FAISS and Vector Database.
- Implemented RAG pipeline to ensure factual AI responses
- Deployed production ready portfolio system

### Audio Extraction Pipeline https://www.halfdigit.com/speech-to-text

- Developed speech-to-text pipeline using Whisper Large-v3 (Hugging Face)
- Enabled high-accuracy transcription for NLP workflows
- Deployed to halfdigit for inferencing

## PROFESSIONAL EXPERIENCE:

**Organization: Accenture Services pvt Ltd | Role: AI/ML Engineer, Data Science specialist | Duration: Apr 2015 to Present:**

- **Machine Learning Model Optimization**: Currently analysing the performance of deployed models within the Salesforce ecosystem. Conducting feature importance analysis on Salesforce MMS data to identify signal drift & engineer new features, **improving model accuracy by 14%**.
- **Data Engineering & Analysis:** Engineered data pipelines to extract unstructured logs from Salesforce Workbench and MMS, reducing manual **data processing time by 30%**. Identifying key correlations in the unstructured data to refine inputs for model retraining and performance optimization.
- **Agentic AI & Deal Intelligence**: Architected & deployed a production-grade AI-agent using Agentforce to query, analyze, and summarize historical win/loss data and competitor intelligence from Salesforce Data Cloud, **accelerating deal intelligence reporting by 40%**. Implemented strict deterministic UI-fallbacks to guarantee data integrity.
- **AI Leadership & Capability Building:** Mentored cross-functional teams in designing and deploying custom generative AI agents within Salesforce Agentforce, accelerating enterprise AI adoption and establishing best practices for scalable, hallucination-free AI architectures.

---

**Organization: Packt Publishing Private Limited | Role: Website Admin | Duration: Dec 2011 to Apr 2015:**

- Managed website content and optimized digital performance by analysing large-scale web traffic trends using SQL and web analytics tools and performed website administration tasks.
- Responsible for managing and installing upgrades for different Intranets (WordPress, SugarCRM, etc).

---

- Organization: Amway India Private limited (Through TeamLease) | Role: ID card Officer (MIS executive) | Duration: Jun 2010 to June 2011
- Organization: Wipro | Role: Associate | Duration: Jun 2010 to Jan'2011
- Organization: Citigroup Global Services Ltd | Role: Trainee | Duration: Aug'2007 to Apr'2008

---

## TRAININGS AND CERTIFICATIONS

- Salesforce Certified: Agentforce Specialist (AI-201)
- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Microsoft Certified: Power BI Data Analyst (PL-300)
- Microsoft Certified: Power Platform Fundamentals (PL-900)
- Microsoft Certified: Power Platform App Maker (PL-100)
- GitHub Certified: GitHub Copilot certification
- Accenture Certified: Reinvention with Agentic AI
- Udemy Certified: Data Science and Machine Learning
- Udemy Certified: SQL Bootcamp
- Udemy Certified: Python Bootcamp
- Anthropic Certified: Claude 101
- Anthropic Certified: AI Fluency Framework & Foundations

---

## EDUCATION

- Master of Computer Applications (MCA), Annamalai University | 2013 | 77%
- Bachelor of Computer Applications (BCA), Annamalai University | 2011 | 72%
